Dear Gary,

I know you've probably gotten hundreds of these letters by now but I wanted to make sure you heard from someone who lives in my area. I live here and see the damage done by this contamination every day, and the worst thing I can imagine is this kind of pollution being carried down river towards the bay and elsewhere. We can't afford that risk with all the people that make their living fishing in the bay. Please don't use a dig and haul.

Sincerely,

(b) (6)
